45th WorldSkills France | MARCH 2018
Regional gold medalist in Web Technologies

Two-day competition to evaluate technical skills in PHP, Javascript, HTML and CSS around a topic that includes notions of user interface, API and dynamic application.

CAREER PATH

International Competitor | WORLDSKILLS FRANCE
SINCE 2018

I will participate in the European finals of the Worldskills competition in the Web Technologies business. The trade brings together skills in web development, algorithm and interface design and user experience for a three-day competition.

VUEJS LARAVEL ALGORITHM UX DESIGN UI DESIGN

Software Engineer | FREELANCE | FRANCE
SINCE 2019

I am in charge of creating internal management platforms for key accounts. At the same time, I also carry out SEO optimisation missions or various website creation missions.

VUEJS LARAVEL REACTJS PYTHON NODEJS

Software Engineer | LEMON LEARNING | PARIS
JUN. 2019 - NOV. 2020

My main mission was to improve the company's technical solutions using Laravel and ReactJS. I was also able to develop internal tools for the company and I had to take care of the technical aspects for a portfolio of key account clients in collaboration with a project manager.

VUEJS LARAVEL REACTJS COMMUNICATION

Fullstack developer | EWILL | AMIENS
MAR. 2017 - SEP. 2018

My missions consisted in maintaining the existing system by gradually erasing the technical debt and implementing new functionalities. I was also able to implement, in Javascript and PHP, new functionalities, thanks to home-made APIs, in the CRM of one of the agency's clients.
